

**About the Colleges:** Dhurwarao Madiya Govt. College, Bhairamgarh Bijapur located on Main Road in Bhairamgarh, And Govt. Naveen College Kutru – District Bijapur, Chhattisgarh, India. is a state government undergraduate college. It serves as an important centre of higher education in the tribal region of Bastar, offering undergraduate courses in Arts, Science, and Commerce streams to local students.

The college is affiliated to Shaheed Mahendra Karma Vishwavidyalaya (Bastar University), Jagdalpur, and aims to provide quality education that fosters overall intellectual, moral, and social development among students.

Despite being in a remote tribal area, the institution plays a vital role in expanding access to higher education for rural and underprivileged communities, helping them build skills and pursue future opportunities.

The campus also emphasizes a supportive and inclusive environment, promoting value-based activities, social awareness programs, and student growth.

**About the Seminar:** The seminar on “Indian Knowledge System: Legacy of the Past, the Relevance of the Present, and the Direction of the Future” was organized with the objective of exploring the vast and holistic knowledge traditions of India developed over thousands of years. The seminar emphasized that the Indian Knowledge System is deeply rooted in ancient texts such as the Vedas, Upanishads, Puranas, Arthashastra, Ayurveda, Yoga, and classical literature, which collectively represent India’s intellectual, scientific, philosophical, and cultural heritage.

During the seminar, discussions focused on the relevance of Indian Knowledge Systems in the present era, especially in the fields of education, health, environment, ethics, mathematics, astronomy, architecture, and governance. Speakers highlighted how traditional practices like Yoga, Ayurveda, Panchayat systems, sustainable agriculture, and value-based education

continue to address modern challenges such as stress, environmental degradation, and social imbalance.

The seminar also provided insights into the future direction of Indian Knowledge Systems by emphasizing their integration with modern science, technology, and academic curricula as envisioned in the National Education Policy (NEP) 2020. It encouraged students and researchers to study, preserve, and innovate using indigenous knowledge to promote self-reliance, sustainability, and inclusive development.

Overall, the seminar successfully created awareness about the importance of Indian Knowledge Systems in shaping a balanced society and inspired participants to reconnect with India’s traditional wisdom while contributing meaningfully to the nation’s future.

#### **Key Objectives:**

1. To understand and appreciate the rich heritage and foundational principles of the Indian Knowledge System.
2. To highlight the relevance of Indian Knowledge Systems in addressing present-day social, environmental, and educational challenges.
3. To promote awareness about traditional Indian practices such as Ayurveda, Yoga, ecology, ethics, and indigenous sciences.
4. To encourage the integration of Indian Knowledge Systems with modern education, research, and innovation.
5. To inspire students and scholars to preserve, document, and promote indigenous and traditional knowledge for future generations.
